

FOODSERVICE MADE SIMPLE

Price Guide 2021

HOW TO ORDER

All purchase orders must include a purchase order number, a '**Ship TO**' address, and a '**Bill TO**' name and address, a customer contact person and phone number, model numbers, quantities, electric specifications, net price and shipping instructions. Export order; please consult factory. All orders must be confirmed in writing via fax, mail or email.

PRICING & TERMS

Terms are net 30 days on approved credit. All prices are subject to change without notice. All prices are in USA Dollars. Prices do not include any taxes. Written quotations are good for 60 days only. All orders subject to acceptance by USECO. Allow extra time to process and establish a new account.

FOB & FREIGHT POLICY

All prices are F.O.B. factory, Savannah TN. Title passes to the consignee when the merchandise is excepted by the carrier. Shipments are pre-pay and add. USECO will select the freight carrier unless customer arranges 3rd party freight and specifies the carrier of their choice. Lift gate delivery, special delivery, shipments to an active construction site or a residential address, etc. are subject to additional freight charges. Additional charges may be applied on subsequent invoices. Shipments are subject to additional handling fees.

USECO is not responsible for loss or damage when freight is in the control of the carrier. Arriving freight should be inspected upon receipt and freight claims should be filed with the carrier promptly for any loss or damage while in transit including hidden damage. Do not accept damaged freight.

USECO is not responsible for delays in delivery due to weather, strikes or any circumstances beyond our control.

RETURNS

Factory prior authorization is required to return any merchandise. Returns are subject to a 35% restock charge. Refurbishing and or repackaging will be an additional charge. Authorized returns will be paid by credit memo only. Merchandise considered custom built, international voltages, 50 cycle, and remote systems are non-returnable. Pre-approved returns must be received by the factory within 30 days from issue of return authorization. Customer is responsible for return freight. Returns must be unused, in its original, unopened crating, and have been purchased within six months from date of return.

SPECIFICATIONS

Due to continued improvement, specifications are subject to change without notice. Substitutions in design and or materials are also subject to change as needed and without notice at USECO's discretion.

Minimum Advertised Pricing Policy – MAP

As the industry's leading manufacturer of Dual Temperature Pans, Cold Pans, Frost Tops and ICE pans, USECO is committed to the success of our distribution partner network. We recognize the investment in resources & the time required to provide world-class products and value-added services to our shared customers. USECO is committed to maintaining policies which allow our resellers to earn equitable profit margins through the sales of our products.

It is paramount that USECO's MAP policy supports the professional image of our products and our organizational integrity, while protecting our brand equity. We support those dealers that provide value added services that drive that brand equity and provide competitiveness in the marketplace. We want our partners to be as complete and as profitable as possible.

Authorized USECO dealers must comply with our mandatory MAP policy. Not just the letter of the policy, but also in the spirit of the policy. All too often some have found clever methods to skirt the intent of the policy to the detriment of complying dealer partners. USECO encourages dealers to sell value added services rather than the lowest price.

USECO products may not be advertised at any price lower than current list less 45%. This applies to all media types including, but not limited to, print, electronic, website, internet, 3rd party platforms, email, direct mail and broadcast. For internet sellers, this includes pricing shown on the check-out screen as well as indicated on earlier screens.

Disapproved practices include; suggestions to place an item in the shopping cart for a below MAP price, asking to 'email us' or to 'call us' for a below MAP price, striking through MAP prices, using re-directs or alias sites that offer below MAP prices, avoiding listing MAP prices, bounce-back pricing emails, bait & switch to another brand and/ or any method to circumvent the spirit of this MAP Policy.

Approved practices include; clearly listing the MAP price or a higher price, selling value added services that differentiate your business and add brand equity while selling features and benefits, instead of lowest price.

USECO reserves the right to hold or cancel orders, suspend a resellers account, or to determine other appropriate sanctions for violations of this MAP Policy.

Thank you in advance for ensuring that your dealership complies with both the letter and the spirit of our MAP policy. We want all our distribution partners to increase their margins and profitability while building customer loyalty and brand equity for both our organizations.

July 2020

USECO LIMITED WARRANTY

USECO equipment is warranted to be free of defects in material and workmanship for a period of 12 months from the date of shipment from the factory. Warranty applies to the contiguous 48 states, to the original commercial end user and is not transferable.

Warranty applies only to properly installed equipment under conditions of normal use in standard commercial foodservice operations and receiving proper preventative maintenance. Normal wear & tear is not covered.

Warranty does not apply to failure from poor or inadequate water supply, improper cleaning, exposure to corrosive and harsh chemicals or acids and does not apply to defects from misuse, neglect, improper installation, freight damage or accidents, fire, flood, riot or acts of God.

USECO's warranty does not include any coverage for loss of business, loss of use, loss of time, loss of profits or income, loss of food products or labor cost and is limited to USECO manufactured products and does not apply to equipment connected to or installed with USECO products. Enough access must be available for service technicians to adequately service equipment. Equipment built into cabinets, tables or structures by others with insufficient access is not covered under labor warranty.

Warranty is void if the equipment has been modified, if parts have been substituted, if the name/ model plate is missing or has been defaced or if the equipment has been repaired or altered by anyone other than an authorized USECO agent.

Warranty work must be authorized in advance by the USECO factory. Claims for work performed without pre-authorization are subject to rejection. For warranty authorization call USECO technical service department at 800-251-3398. A service technician will diagnose, and trouble shoot with the end user to find a service solution. If a solution can not be resolved over the phone, USECO will determine how best to resolve the issue, which may include dispatching a service agent, shipping a part or another method to provide a solution.

When calling USECO for warranty service please have the following information ready: name and address of business location, contact information, model and serial number, date of purchase, name of dealer where purchased, credit card information and a description of the service issue.

Warranty covers parts and labor performed during normal business hours. Labor performed after hours, on weekends or holidays are not covered and are at the discretion and expense of the end user and not paid by USECO. Travel mileage is covered up to 100 miles round trip or up to 2 hours round trip. Additional time and travel will be at the end users' expense.

USECO's sole obligation is to repair or replace the product at USECO's option. This warranty is in lieu of all other warranties expressed or implied, including any warranty of merchantability, and fitness for a particular purpose.
